

HOLLER GIRLS

words and music music
G. Lucass R. Runyon

I've got a Studebaker with a Chrysler 'neath the hood

George Jones is singing this time he's over her for good

I'm going up the mountain and I'm coming back to life

In the hills of old Kentucky I'm gonna get myself a wife

C Holler girls holler girls they make good love and gravy
H
O Strong as any man and soft just like a baby
R
U Holler girls holler girls how I love them holler girls
S

Sweet as rhubarb dumplins take your breath like ninety proof

Love you like a thunderstorm underneath and old tin roof

Can tune a carburetor make quilts and cornbread too

Make you proud to be a man like no city girl can do

CHORUS

Kiss you when you go to work or out fishin with your friends

Love you when you buy a boat if you name it after them

You can have your prissy types going shopping all the time

I just want a holler girl with a twinkle in her eye

CHORUS

I'll live up in the laurels with that holler girl of mine

We'll sit out on the porch swing cutting peaches for my shine

Go and get a preacher 'cause I've done made up my mind

This old boy ain't foolin' 'round she's a holler girl this time

CHORUS
