## NEVER QUIT GOING

I'll wash the dishes  
I'll wash the diapers too  
I'll mop the floor  
But that's not all I'll do  
I'll clean the toilet after all that's through  
But I ain't never quit going to the races for you

Just like Elvis back in the days of old  
First saturday of the month  
Down at the picture show  
I'll get the girl  
Win the race  
And away we go  
Another race  
Another city  
A whole lot of dough

I'll wash the dishes  
I'll wash the diapers too  
I'll mop the floor  
But that's not all I'll do  
I'll clean the toilet after all that's through  
But I ain't never quit going to the races for you

I love the grease  
I love it in the pits  
I love precision  
The way the tailpipe spits  
I love the noise in the place I sit  
I sit up close so I can taste the grit

I'll wash the dishes  
I'll wash the diapers too  
I'll mop the floor  
But that's not all I'll do  
I'll clean the toilet after all that's through  
But I ain't never quit going to the races for you

I love the smell of rubber as it burns  
I love the grace with which they make those turns  
From race to race  
I see what each one learns  
And I'd like to be making what some of the good ones earn

I'll wash the dishes  
I'll wash the diapers too  
I'll mop the floor  
But that's not all I'll do  
I'll clean the toilet after all that's through  
But I ain't never quit going to the races for you
