

I Don't Have a Care

words and music by Bob Runyon

I love the way this old big river flows

Like your long brown hair passing by.

I love the mist in the morning stillness

And the mystery look in your eye.

I don't care where this old big river's goin'

And I don't care that my love for you is showin'

I don't have a care just as long as our love is growin'

I don't have a care

If your love is there

I don't have a care

As long as our love is growin'

I love the sky so awesome and blue

Reflecting so small in your eyes.

I love the songs the birds sing for you

With a beauty that no one denies

I don't care where this old big river's goin'

And I don't care that my love for you is showin'

I don't have a care just as long as our love is growin'

I don't have a care

If your love is there

I don't have a care

As long as our love is growin'
