

FROM THE START

When I started out I never thought it would be so hard
To make this dream come true every inch seems like a yard
I've got to keep on pushing because I've come a long long way
And I've got to keep believing it will all pay off someday

CHORUS You know I love you, you own my heart

There's no one I place above you I've known it from the start
This dream's just like a snowball it's getting bigger every turn
I'm not getting any younger my candle's on the burn
I hear your clock a ticking I see that sadness in your eyes
But your standing right beside me and it comes as no surprise

CHORUS #2

I know you love me I own your heart
There's no one you place above me I've known it from the start
Someday when we're old and our dreams are in the past
We'll watch our children toil for what they hope will last
I don't know where we'll be and I don't know how we'll feel
But we'll always be together because our love is real

CHORUS
