

FROM THE START

**A**

**F#m**

1. When I started out I never thought it would be so hard
2. This dream's just like a snowball it's getting bigger every turn
3. Someday when we're old and our dreams are in the past

**D**

**E**

To make this dream come true every inch seems like a yard  
I'm not getting any younger my candle's on the burn  
We'll watch our children toil for what they hope will last

**A**

**F#m**

I've got to keep on pushing and I've come a long long way  
I hear your clock a ticking I see that sadness in your eyes  
I don't know where we'll be and I don't know how we'll feel

**D**

**E**

And I've got to keep believing it will all pay off someday  
But your standing right beside me, and it comes as no surprise  
But we'll always be together because our love is real

**D F#m E D F#m E**

1. 3. You know I love you, you own my heart

**D F#m E D**

There's no one I place above you ,you've known it from the start

**D F#m E D F#m E**

2. I know you love me I own your heart

**D F#m E D**

There's no one you place above me, I've known it the start
