

GOOBERWOOD

Em C D G
1. Developer Bagwell from an old tobacco clan
2. Opie didn't like it so he took his pen in hand
3. Opie looked around him he saw many petty feuds

Em C D Em
Had some extra money and he looked out over the land
He didn't like the image or what was happening to the land
Folks that used to love one another and thought they always would

Em C D G
He thought he'd build a theme park put it in the hills
He thought about his Pa and he thought about Aunt Bea
Everything is cheaper down at Kerr McGee's

Em C D Em
Where folks never had too much to say he knows they never will
Then went down to the graveyard to pray that he might see
Convenience store and bait shop see yourself on their t.v.

Em C D G
Howard said he liked it; it was good for the whole county
He stood around in the graveyard and looked out over the stones
Pa would know how to say it Aunt Bea would know what it was

Em C D Em
Barney made commercials and they put them on t.v.
A lot of good people with a lot of good sense but all were dead and gone
That bothered him and woke his sleep and kept his mind abuzz

Em C D G
Talk down at the barbershop said it would bring in jobs
He thought he heard a voice he hoped it might be God
Nature was disappearing the wildlife went away

Em C D Em
But folks didn't like Mr. Bagwell because he was a snob
Maybe it was just Aunt Bea from down beneath the sod
But no one has time to hunt or fish so I guess it's all o.k.
