

THE HILL SONG

words and music
R. Runyon

Let's get together and have some fun
Play our music 'till the sun
Get together on a sturdy night
Everybody feels alright

Let's get together and have ourselves some fun
Let's get together and share one another's love
Let's get together and keep each other warm
Let's get together on our brother's farm

I wrote this song here just for you
Even though I think you knew
I had to let you know just how I feel
Because how I feel is so unreal

Let's get together and have ourselves some fun
Let's get together and share one another's love
Let's get together and keep each other warm
Let's get together on our brother's farm
