

That's progress

That's progress don't it look good words and music R. Runyon
There is so much more light here now without those woods
That new store is such a pretty rectangle
Those old trees were a mess and a tangle

1st chorus That's progress don't it feel good
We're stepping up now brick beats wood
That's progress an unstoppable wave
Grab your board for a ride to your grave

That's progress gonna make me some money
I'll work real hard and bring it home to you honey
There's lots more people and they all need jobs
Let's clean up this country give some work to slobs

2nd chorus That's progress don't it feel good
We're stepping up now brick beats wood
That's progress an unstoppable wave
Grab your board for a ride to your grave
There's no way that we can stop it
Really there is no place to hide
All will drown but some will go sooner underneath it's rising tide

That's progress gonna find me some action
I'll keep moving till I find some satisfaction
I'll be a success I'll be filled with elation
When I sell my soul to a big corporation

2nd chorus
