

THE GOLDEN ONE

words and music
R. Runyon

CHORUS

Fifty years and we're still dears
Not many people make it fifty years
Fifty years here by my side
Keeping happiness alive
A lot of laughter a lot of tears
A lot of life in fifty years

Remember that trailer we lived in,
In Arkansas
Not too much room,
About the size of our car
We had some hard times
But always came through
I thank the Lord
I could depend on you

CHORUS

A house full of kids will surely
Try ones nerves
We worked so hard
For so much less than we deserve
We all get down
And need a reason to smile
That's why I look at you
Every once in a while

CHORUS

We go a little slower
But that's no reason to stop
You never know
Next year might be the top
One things for sure
If you're standing here
I hope to last
For a thousand years
