

GONE GONE GONE

E F#
Too much truth and not enough beauty
A E
Can make your day so long
F#
I try to hold on, try to do my duty
A E
in the hope it will make me strong
A B E
But I'm just wore out and tired
A B E
This aging muck has got me mired
A B E
But I'm holding out for a feeling
A B E
A thought my mind can find appealing
A B E
Before I'm gone gone gone gone gone

E F#
Sitting hear waiting for it,
A
To finally appear
E
Right before my eyes

They say enlightenment
F#
Can come fast or slowly
A E
But it's always a surprise
A B E
Ain't it funny what we don't know
A B E
About the things that we do know
A B E
And I hope that when it finds me
A B E
That it's radiance don't blind me
A B E
For too long long long long long

E F#
Too much time and not enough happy

A E
Can hurt you for a while

But when you wake up

F#
You know you better get snappy

A E
Better recognize a smile

A B E
'Cause no one else can learn your lesson

A B
That's what I think

E
I'm only guessing

A B E
But everyday I'm waiting

A B E
Forever on anticipating

A B E
Until I'm gone gone gone gone gone
